Gusstechnik Schopfheim GmbH & Co. KG
Grienmatt 1, 79650 Schopfheim

To all commercial partners of Gusstechnik Schopfheim GmbH & Co. KG

As of September 2026

**Directive 2011/65/EU**
**RoHS – Restriction of the use of certain Hazardous Substances**

Dear Sir or Madam,

Directive 2011/65/EU of the European Parliament and of the Council of June 8, 2011 (RoHS) regulates the restriction of the use of certain hazardous substances in electrical and electronic equipment. In Germany, the directive is implemented in particular through the Electrical and Electronic Equipment Substances Ordinance (ElektroStoffV).

The objective of the RoHS Directive is to restrict the use of certain hazardous substances in electrical and electronic equipment and thereby contribute to the protection of people and the environment, as well as to environmentally sound recycling and disposal.

Gusstechnik Schopfheim GmbH & Co. KG takes the requirements of the RoHS Directive and the ElektroStoffV that are relevant to its products and materials seriously.

To the extent that products or materials supplied by us are intended for applications that fall within the scope of the RoHS Directive, we comply with the applicable substance restrictions. These currently include lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), and the phthalates DEHP, BBP, DBP, and DIBP.

Compliance with the applicable maximum concentrations is ensured in accordance with the requirements applicable to the relevant materials and applications.

This applies in particular to the applicable regulations and exemptions regarding the use of lead as an alloying element in metallic materials.

Since the RoHS Directive—and in particular its exemptions—are regularly updated to reflect scientific and technical progress, we take the current legal status into account in our assessments.

If you have any questions regarding the RoHS compliance of a specific product or material we have supplied, please do not hesitate to contact us.

Sincerely,
Gusstechnik Schopfheim GmbH & Co. KG
